
PRODUCT REQUIREMENTS DOCUMENT (PRD)

Product Name: NextGen Coders

Target Users: Grade 4–10 Students, Parents, Teachers, Admin

Document Owner: —————

Audience: Product Development / Engineering Team

Version: v1.0 (MVP / Phase 1)

Status: —————

PURPOSE & OBJECTIVE

The objective of this product is to build an **end-to-end EdTech platform** that:

- Markets the academy publicly
- Allows parents to book demo classes
- Manages demo and paid online coding classes
- Provides structured dashboards for Admin, Teacher, and Student
- Ensures **child safety, data security, and parent trust**

This PRD defines **WHAT must be built and expected system behavior**.

Technical architecture decisions are left to the development team.

PRODUCT SCOPE (PHASE 1 – MVP)

In Scope

- Public marketing website
- Demo class booking
- LMS with role-based dashboards
- Live online classroom integration
- Class scheduling & recordings

- Parent visibility & communication
 - Basic refund & cancellation rules
-

3 PUBLIC WEBSITE REQUIREMENTS (FIRST DELIVERABLE)

3.1 Pages Required

Home Page

- Hero section with value proposition
 - Clear CTA: **“Book a Free Demo Class”**
 - Highlights:
 - Grade 4–10
 - Live instructor-led classes
 - Project-based learning
 - Testimonials / trust indicators
-

About Us

- Mission & vision
 - Teaching philosophy
 - Instructor quality standards
-

Accreditations / Trust

- Certifications (if any)
 - Child safety commitment
 - Privacy & data protection promise
-

Curriculum

- Grade-wise curriculum (4–10)
- Learning outcomes

- Technologies covered
 - Progression path
-

Pricing

- Demo (Free)
 - Paid plans
 - Clear comparison table
 - Refund & cancellation policy link
-

Contact Us

- Contact form
 - Email & phone
 - WhatsApp integration (optional)
-

3.2 Global Website Requirements

- Responsive (mobile, tablet, desktop)
 - SEO-friendly
 - Fast loading
 - Demo booking connected to backend
-

4 AUTHENTICATION & ACCESS CONTROL

- Login & Sign Up for:
 - Admin
 - Teacher
 - Student
- Role-based access
- Password reset
- Parent email linked to student account
- Time-zone auto-detection per user

5 LMS DASHBOARDS OVERVIEW

The LMS will include:

- **Admin Dashboard**
- **Teacher Dashboard**
- **Student Dashboard**

Each dashboard must:

- Display content according to user role
 - Respect time-zone differences
 - Enforce access permissions
-

6 ADMIN DASHBOARD REQUIREMENTS

6.1 User Management

- View all:
 - Student profiles
 - Teacher profiles
 - Parent contact details
 - Activate / deactivate users
 - Student Onboarding
 - Teacher Onboarding
 - Teacher Deboarding
-

6.2 Class Scheduling

- Create demo & paid classes
- Assign:
 - Teachers
 - Students
- Time-zone aware scheduling

6.3 Teacher Availability View

- Admin can view:
 - Available teacher slots
 - Leave-marked slots
 - Scheduling must respect:
 - Teacher availability
 - Approved leave
-

6.4 Class Mapping

- Demo class mapping
 - Paid class batch mapping
 - Reassign teachers if required
-

6.5 Recordings & Monitoring

- Access all class recordings
 - Visibility controls
 - Audit support
-

7 TEACHER DASHBOARD REQUIREMENTS

7.1 Today's Classes

- List of scheduled classes (Demo/Paid)
 - **Join button activates 10 minutes before class**
 - **Join button deactivates 1 hour after class end**
-

7.2 Calendar & Availability

- Calendar view

- Mark available slots-(Temporary / Permanent)
 - Apply for leave
 - Leave must respect leave credit limits
-

7.3 Earnings Page

- For successfully completed class add Payment - Classes completed
 - Earnings breakdown - Deduction & Earning
 - Payment status
-

7.4 Post-Class Feedback

- Mandatory feedback form appears after class completion
-

7.5 Teacher Profile

- Personal & professional details
 - Skills & experience
-

8] STUDENT DASHBOARD REQUIREMENTS

8.1 Class Schedule

- Upcoming classes
 - Join button (same timing rules as teacher)
-

8.2 Learning History

- Completed classes
- Class notes
- Recorded sessions

8.3 Assignments & Quizzes

- View & submit assignments
 - Quiz attempts & scores
-

8.4 Assessments & Certificates

- Assessment page
 - Auto-generate certificates on completion
 - Download option
-

8.5 Calendar & Class Actions

- Student calendar view
 - Options to:
 - Schedule
 - Cancel
 - Reschedule classes
 - Only with assigned teacher
 - Cancellation rules apply
-

8.6 Support

- Support button
 - Query submission
 - Ticket status tracking
-

9] PARENT VISIBILITY & COMMUNICATION (LAYER 1)

Requirements

- Parent email linked to student account

- Automated notifications for:
 - Class schedules
 - Cancellations / reschedules
 - Payments & invoices
- Support communication via email/WhatsApp

(Dedicated Parent Dashboard can be Phase 2)

10 LIVE CLASSROOM & RECORDINGS

- Join redirects to Zoom-like classroom
 - Features:
 - Video
 - Audio
 - Screen sharing
 - **Every class must be recorded**
 - Recordings saved to cloud storage
 - Access:
 - Admin: full
 - Student: limited
-

11 TIME-BASED SYSTEM RULES

Rule	Description
Join Button Activation	10 minutes before class
Join Button Deactivation	1 hour after class
Time Zone Handling	All dashboards adjust automatically
Leave Impact	Teacher leave blocks scheduling

12 REFUND, CANCELLATION & MISSED CLASS LOGIC (LAYER 2)

Minimum Rules

- Demo no-show handling
- Student cancellation window
- Teacher no-show escalation
- Refund eligibility rules
- Admin override capability

(Exact policy text to be configurable)

13 CHILD SAFETY & CODE OF CONDUCT (LAYER 2)

- Mandatory class recording
 - No private off-platform communication
 - Teacher code of conduct
 - Camera & chat usage rules
 - Reporting & escalation mechanism
-

14 BACKUP & FAILURE HANDLING (LAYER 2)

- Manual admin override for join links
 - Alternate meeting links
 - Manual attendance tracking
 - Emergency communication via WhatsApp/email
-

15 NON-FUNCTIONAL REQUIREMENTS

- Secure cloud storage
- Role-based authorization
- High availability during class hours

- Child data privacy compliance
 - Scalable architecture
-

16 ASSUMPTIONS & CONSTRAINTS

- Small initial team
 - Manual operations allowed initially
 - Third-party tools (Zoom/Meet)
 - MVP-first approach
-

17 FINAL NOTE TO DEVELOPMENT TEAM

This PRD defines **functional expectations and behavior**.

Technical design, APIs, database structure, and deployment approach are at the discretion of the engineering team.
